

# DeaneCo 6-31 GP TYPE 1

## ACIDIC CLEANER FOR RUST AND OXIDES

DeaneCo 6-31GP Type I or II is an acidic cleaner excellent at removing corrosion products from ferrous and aluminum alloy surfaces. Also provides corrosion inhibition, and serves as an effective pre-treatment prior to painting applications. Can be applied by immersion, spraying, or brushing.

### BENEFITS

- Cleans and removes oxide layers and corrosion products from metal surfaces, and protects against corrosion
- Improves surface adhesion for painting applications
- Used for the brightening of aluminum surfaces; leaves a satin finish on surface
- Rapidly soluble in water
- Does not contain any nonylphenol ethoxylates (NPEs)

### PHYSICAL PROPERTIES

Appearance	Liquid	Solubility	Water soluble	Flammability	Non flammable
Colour	Clear	pH	2	Density	1.34
Odor	Solvent	Flash Point	Not available

### LEGISLATION

WHMIS Regulated

### SAFETY & HANDLING

Dispose of container and its contents in compliance with all applicable regulations.

Refer to safety data sheet for additional information.

**USE PROCEDURES**

**NON HEATED IMMERSION:** At room temperature, dilute DEANCO 6-31GP with water to a 20–25 % volume concentration. Immerse substrates to be treated for 3–10 minutes.  
**RINSING:** Rinse with cold or warm water.

**HEATED IMMERSION:** (up to 60 °C): Dilute DEANCO 6-31GP with water to a 6–9 % volume concentration. Immersion time will depend on extent of surface treatments; typical immersion times are 3–10 minutes.

**RINSING:** Rinse with cold or warm water.

**ASPERSION:** At room temperature, dilute DEANCO 6-31GP with water to a 20–25 % volume concentration. Spray using an airless sprayer. Cleaning can be accelerated by brushing surface.

**RINSING:** Rinse with cold or warm water.

**BRUSH ON APPLICATION:** At room temperature, dilute DEANCO 6-31GP with water to a 14–25 % volume concentration. Apply solution with a brush, or solution saturated cloth. **RINSING:** Rinse with cold or warm water.
