

HONEY BEE™ FRESHENER SOAK 50C

AQUEOUS DETERGENT AND PERFUME SOLUTION

HONEY BEE™ Freshener Soak 50C is an aqueous detergent and perfume solution designed for deodorizing aircraft toilets, toilet parts prior to servicing, and aircraft interior and cargo areas.

BENEFITS

- Effectively combats offensive odours caused by residue accumulated within toilet tanks
- May be mixed in the ground equipment's rinse water system, used for servicing the toilets to prevent offensive odours from permeating aircraft interiors
- May be used to deodorize toilet parts prior to maintenance work
- May be used to deodorize contaminated cargo areas
- Safe on aircraft structural metals

PHYSICAL PROPERTIES

Appearance	Liquid	Solubility	Water soluble	Flammability	Non-flammable
Colour	Yellow, brownish	pH	6	Density	0.99 g/ml
Odor	Pleasant	Flash Point	>100 °C

APPROBATIONS

- Meets requirements of AMS 1476A
- Répond aux exigences de l'AMS 1476A

USE PROCEDURES

INPLACE TREATMENT OF TOILETS DURING A LAYOVER OF SIX (6) HOURS OR MORE

1. Drain all toilets and rinse with water.
2. Place 1 gallon (4.5 litres) of HONEY BEE™ 50C into each double toilet tank (30 gallon total capacity) or 0.5 gallons into a single tank (15 gallons capacity).
3. With fresh water, fill each tank to volume levels above the flapper valves.
4. Flush each toilet several times, and allow to dwell in the tanks, until plane is returned to service.
5. Drain each toilet tank, but do not rinse.
6. Charge each toilet with HONEY BEE™ Deodorant 24 prime charge solution.

MECHANICAL SERVICING OF TOILETS IN PLACE:

- To improve odours and reduce hazardous waste exposures to workers, spray the work area with undiluted, or diluted (up to 10 parts volume water) HONEY BEE™ Freshener 50C, prior to starting work.

IN SHOP:

- Toilets and toilet parts taken to the shop for work should be sprayed down with undiluted, or diluted (up to 10 parts volume water) HONEY BEE™ 50 C for at least 10 minutes, prior to starting work. Toilets and/or parts should be spray rinsed with high pressure water.

DEODORIZING APPLICATION:

- HONEY BEE™ Freshener 50C can be used for treatment of malodours in the toilet basin galley areas caused by human wastes, vomit, food spills, etc.; and from live cargo wastes and other spills in the cargo area.
- Contaminated areas should be cleaned well with cleaners such as HONEY BEE™ 90 or SUPER BEE™ 210, before being deodorized. The area should then be sprayed down with a 10 %, by volume, solution of HONEY BEE™ Freshener 50C.

GROUND SERVICE EQUIPEMENT APPLICATION

- Dilute HONEY BEE™ Freshener 50C to 100 parts water, by volume, to deodorize ground equipment's rinse water used to service toilets.

LEGISLATION

- WHMIS Regulated

SAFETY & HANDLING

- Refer to Safety Data Sheet (SDS) for additional information
- Dispose of container and its contents in compliance with all applicable regulations.
- Avoid contact with eyes and skin. Do not ingest. If accidental contact occurs, flush with affected areas with water. If irritation persists, seek medical attention.
