

# DE-816

## PH BOOSTER ADDITIVE

DE-816 IS AN ADDITIVE USED TO INCREASE THE PH DURING WATER TREATMENT.

### BENEFITS

- Allows easy pH control of wastewater treatment

### PHYSICAL PROPERTIES

Appearance Liquid

Colour Colourless

Odor Odourless

Solubility Water soluble

pH > 13

Flash point NA

Flammability

Non-flammable

Density

1.19

### AVAILABLE FORMATS

20L

55DE816P

208L

55DE816D

1000L

55DE816T

### USE INSTRUCTIONS

DE-816 is used to increase the pH of water treatment systems and special purpose solutions.

1. Add DE-816 in small amounts to limit exothermic reactions and avoid splashing.
2. Shake vigorously to obtain a homogeneous mixture.
3. Add DE-816 as needed until the pH matches the expected value. The pH of the solution can also be controlled using an automatic system.

Consult your Desco representative to optimize pump and dispensing systems.

### SAFETY & HANDLING

- See the Safety Data Sheet for additional information
- Dispose of the contents / container in accordance with the applicable regulations

### LEGISLATION

- Product regulated by WHMIS

Information and recommendations regarding this product are presented in good faith. However no guarantees are associated with the data presented in this document, and no such guarantees should be interpreted from the information and expected results presented. We do not assume any liability for damage, loss or injury, direct or indirect, related to the use of this product.
