USE INSTRUCTIONS

1. Spray on the surfaces to be cleaned and allow to penetrate soiled surfaces for 10–30 minutes.
2. Dwell times will vary with surface conditions.
3. Rinse with a high pressure water jet.

Note: Application of DE-9000 on wet surfaces may dilute product and reduce its effectiveness. Use of hot water at high pressures will enhance product's efficiency. Natur-Solv can also be used by cold immersion. Mechanical agitation will enhance effectiveness. Immersion times will vary with types of soil and surface conditions.
